### EXAMINER'S AMENDMENT

1. An amendment was received on 27 August 2009. By this amendment, Claims 1 and 3-6 have been amended. New Claims 14-27 have been added. Claims 7-9, 12, and 13 have been canceled. Claims 1-6 and 14-27 are currently pending in the present application.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andy Pho on 23 September 2009.

3. The application has been amended as follows:

#### IN THE CLAIMS:

Please **REPLACE Claims 5, 6, 20, 21, and 26** with the following amended claims:

5. The method as in claim 1, ~~wherein altering a parity symbol comprises further~~ comprising overwriting one of said parity symbols with an arbitrary erroneous symbol which is a valid Eight-to-Fourteen Modulation (EFM) symbol.

Art Unit: 2437

6. The method as in claim 1, ~~wherein altering a parity symbol comprises~~ further comprising overwriting one of said parity symbols with an invalid symbol that does not correspond to any 8-bit value defined for Eight-to-Fourteen Modulation (EFM) encoding.

20. The copy-protected disc of claim 17, wherein ~~altering a parity symbol comprises~~ overwriting one of said parity symbols is altered by being overwritten with an arbitrary erroneous symbol which is a valid Eight-to-Fourteen Modulation (EFM) symbol.

21. The copy-protected disc of claim 17, wherein ~~altering a parity symbol comprises~~ overwriting one of said parity symbols is altered by being overwritten with an invalid symbol that does not correspond to any 8-bit value defined for Eight-to-Fourteen Modulation (EFM) encoding.

26. The copy-protected disc of claim 25, wherein the disc master has a plurality of sectors and said ~~selecting at least one audio data sample selects~~ at least one selected audio data sample further comprises at least one audio data sample within each of a group of sectors selected from said plurality of sectors.

***Allowable Subject Matter***

4. Claims 1-6 and 14-27 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Independent Claim 1 is directed to a method for producing a copy-protected audio compact disc master, independent Claim 27 is directed to a corresponding disc master produced by such a method, and independent Claim 17 is directed to a disc produced from a disc master such as that of Claim 27. Each claim requires that the disc master or disc have recorded onto it audio data samples where at least one audio data sample has a corresponding data symbol overwritten with an erroneous symbol. The claims further require that the discs contain (or the method records onto the disc) a first disabled C1 error-correction codeword having an altered P-parity symbol, a disabled C2 error-correction codeword having an altered Q-parity symbol (both associated with the overwritten data symbol), and a second disabled C1 error correction codeword with an altered P-parity symbol that corresponds to the altered Q-parity symbol. The disabling of the error correction codewords prevents correction of the erroneous symbol for copy protection purposes. The closest prior art, Siquin, does disclose disabling error correction of intentionally introduced erroneous data symbols on an audio compact disc for the purpose of preventing copying of the disc; however, Siquin only more generally discloses preventing recalculation of the CIRC relating to an intentional error, and does not teach or suggest the specific disabling of the error correction by altering C1 and C2 codewords corresponding to the overwritten data symbol and also altering the C1

Art Unit: 2437

codeword corresponding to the altered parity symbol in the C2 codeword as recited in each of the independent claims. Therefore, the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
